

CERTIFICATE OF COMPLIANCE

Independent Sound Validation

All EVAPCO Cooling Towers, Closed Circuit Coolers and Condensers
have been tested in accordance with CTI ATC-128,
Test Code for Measurement of Sound from Water-Cooling Towers,
by a CTI-licensed independent test agency

As outlined in CTI ATC-128, sound testing was conducted on various EVAPCO cooling towers, closed circuit coolers and condenser models by an independent CTI-licensed sound test agency. Sound pressure levels were recorded in the acoustic near-field and far-field locations. Using certified and calibrated precision sound test instruments per test standards, the sound test agency conducted and verified the analysis.

Applicable Codes:
CTI ATC-128
